**MARANTZ TO SHOWCASE MORE AFFORDABLE, HIGH-PERFORMANCE
ANAMORPHIC LENS FOR ITS AWARD-WINNING PROJECTORS AT CES 2009**

-- New LN-11S1 is a Perfect Companion for Company's Critically Acclaimed VP-11S2 and VP-15S1 Projectors, Both Now Updated With New Lens Coatings to Enhance Contrast as well as the Entire Cinematic Experience --

LAS VEGAS, NV, January 8, 2008 – Marantz® America, a world leader in advanced home entertainment solutions, will display its new Motorized Anamorphic Lens System at CES 2009. Designed and built in-house, the **LN-11S1** (SRP: \$3,999) is intended for use as a companion to Marantz' award-winning high-performance projectors, the VP-11S1/VP-11S2 and VP-15S1. This new lens, featuring optics from Konica-Minolta, represents a fully assembled turnkey solution for enhancing the performance of Marantz projectors. Currently available for purchase, the LN-11S1 joins the LN9103M (SRP: \$10,000) in Marantz's anamorphic lens product line.

High-Performance Lens Can Easily Be Retrofitted to Installed Projectors

This new anamorphic lens features a quiet motorized lens/sled assembly that not only provides for smooth, quiet operation but can also be retrofitted for use with virtually any VP-11S1, VP-11S2 or VP-15S1 already installed in a home theater system. The LN-11S1 features multi-adjustment lens mounts and trigger inputs for easy custom automation and sled activation. A specially designed custom mount is included with the LN-11S1, providing efficient and reliable attachment to the VP-11S1, VP-11S2 or VP-15S1. Additionally, the LN-11S1 is also designed to work with other brands of projectors that incorporate vertical stretch technology.

About Marantz

Marantz America is committed to upholding the tradition of technological superiority initiated by founder Saul Marantz. In keeping with this emphasis on quality, Marantz audio and video components are carried only by the nation's premier independent audio/video specialty retailers.
