**60<sup>TH</sup> ANNIVERSARY MCINTOSH MXA60, COMPANY'S FIRST-EVER INTEGRATED AUDIO SYSTEM, IS NOW AVAILABLE**

*-- Time-Honored McIntosh® Craftsmanship, Incomparable Aesthetics and Audio Superiority Now Available in Compact Integrated System --*

**BINGHAMTON, NY, December 9, 2009** -- McIntosh Laboratory, a global leader in home entertainment that has defined the highest quality in sound reproduction for 60 years, today announced that its 60<sup>th</sup> Anniversary **MXA60 Integrated Audio System** (US MSRP: \$7,500), the company's first-ever standalone integrated audio system is now available. Designed by the same team of renowned McIntosh engineers who created the company's high performance Reference System, this ultimate-quality tabletop system features a high-performance 75-watt-per-channel amplifier, state-of-the-art CD/SACD/MP3 player, vacuum tube preamplifier, as well as an AM/FM/RBDS Tuner and high performance, two-way bass reflex loudspeaker system that packs all the legendary McIntosh sound into a smaller package.

McIntosh President Charlie Randall noted: "Ever since we introduced the MXA60 earlier this year, we've been receiving a great deal of interest, both from our retail partners and from consumers. In many ways, this unique system truly represents what McIntosh has always been about. It combines our ongoing pursuit of audio perfection with our commitment to utilizing the latest, most advanced technologies in products that meet --

and exceed – changing customer desires. The result is an audiophile-quality system that delivers on the time-honored McIntosh promise of superior sound, all in an easy-to-use, fully integrated and compact solution.”

### **Unmistakably McIntosh – Superior Craftsmanship, Audiophile Quality Sound**

With its solid all-metal casework, anodized aluminum accents, backlit glass faceplates with Peak Reading Wattmeters and heirloom quality construction, everything about the new MXA60 is unmistakably McIntosh – reflecting the company’s 60 years as a leader in world-class luxury audio.

In addition to all the familiar and renowned McIntosh design themes, the MXA60 features the superior music reproduction technologies that have cemented the company’s singular reputation among audiophiles. The powerful 75-watt transistor-based amplifier features Sentry Monitor fuse-less short-circuit protection and Power Guard anti-clipping circuitry to ensure distortion-free performance and reliability. The preamp’s advanced hybrid transistor/tube design utilizes a dual triode tube design for the purest music reproduction capabilities.

The MXA60’s dual low-distortion loudspeakers create a rich soundscape perfect for enjoying ultimate quality audio performance in any sized room. The MXA60’s two-way loudspeakers were fashioned in the tradition of the revered mini-monitors of old, providing an astounding level of high-quality audio from a surprisingly compact package. To achieve their high level of performance, the speakers feature custom designed mid-woofers with a four-inch diameter and exhibit a deep, wide soundstage that presents the listener with an engaging, palpable sense of realism.

### **About McIntosh Laboratory**

McIntosh Laboratory celebrates its 60<sup>th</sup> anniversary in 2009, and the company’s unswerving commitment to excellence, innovation and quality continues to define the state-of-the-art in high fidelity and bring discriminating consumers around the world an elevated home entertainment experience.
